Portfolio: jonelleadona.github.io/mobile-responsive-portfolio.github.io/index.html

Having earned a certificate in full stack development from UCF Coding Bootcamp, I have dedicated my time and focus on creating web applications that show both creativity and innovation. With a background degree in health service administration, I have learned to develop extraordinary client-patient skills that are sought in any career field. I am a strong problem solver, that is constantly striving to learn new code languages and technologies.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, SQL, JSON

Applications: MongoDB, MySQL, Github

Tools: Express, React, Node, Handlebars, Query, Bootstrap, databases

PROJECTS

Current Weather Report Dashboard

Github Repository: github.com/jonelleadona/current-weather-reports.github.io
Deployed Site: jonelleadona.github.io/current-weather-reports.github.io/
- Summary: This application includes current weather information and five-day report for any city around the world that is searched by the user.
- Role: Sole author
- Tools: APIs, JavaScript, HTML5, CSS3, Bootstrap, AJAX

Simple Workday Calendar

Github Repository: github.com/jonelleadona/simple-workday-calendar.github.io
Deployed Site: jonelleadona.github.io/simple-workday-calendar.github.io/
- Summary: This useful calendar offers the ability to save input events while also indicating if the time of the event is either a past, future, or present event based on color.
- Role: Solo author
- Tools: JavaScript, HTML5, CSS, Bootstrap, moment.js, jQuery

Employee Directory

Github Repository: github.com/jonelleadona/react-employee-tracker-github.io
Deployed Site: jonelleadona.github.io/react-employee-tracker-github.io/
- Summary: Allows the user to view a list of employees and filter through by using a search to find by name
- Role: solo author
- Tools: React, APIs, JavaScript, HTML5, NPM Packages, JSX

EXPERIENCE

Patient Service Representative   **2021 - Present**
Overlake Medical Center   **Bellevue, WA**

Provided excellent patient care by greeting, checking in, creating appointments, collecting co-pays, and more.
Accomplishment:
- Managed check in times to lessen the wait for patients coming in
- Reviewed insurances to determine eligibility & copayments
- Worked with care providers to set appropriate appointment times for both patients and provider
- Maintained a clean work environment for the front office to prevent the spread of COVID19

Public Relations Director   **2019 -2020**
Volunteer UCF   **Orlando, FL**

Bettered the Orlando community by attending and creating events that allow UCF students to become involved in acts of volunteerism.

Accomplishments:
- Created monthly newsletters for VUCF members
- Maintained volunteer retention ratings
- Reached out to local community partners to help with given task
- Advocated the importance of volunteering to the UCF community

EDUCATION

Certificate, Full Stack Development – UCF Coding Bootcamps '21

Bachelor's of Science, Health Service Administration – University of Central Florida '20
